Experience

Jivan Health

January 2024-April 2024

Frontend Developer Intern

Remote

<http://jivanhealth.in/>

As a Frontend Developer Intern at Jivan Health, I led NextJS integration, collaborated on a healthcare portal, and integrated an AI Chatbot & real-time doctor consultation using NodeJS. Achievements: reduced query resolution time by 30%, optimized performance for a 25% faster load time.

Buildspace

Aug 2023 - Oct 2023

N&W S4 Builder

Remote

<https://buildspace.so/>

During my time as an N&W S4 builder, my team and I successfully developed Reposight, a project designed to assist beginners and intermediate developers in connecting with open-source projects they are passionate about but find challenging to navigate. Leveraging technologies such as Cassandra, MERN Stack, and Github Bots, we created our prototype and were invited to attend the summit in Dubai, UAE

Exidge

September 2023-Present

Lead Backend Developer

Remote

<https://exidge-web.web.app/>

As Lead Developer at Exidge, I spearheaded cutting-edge solutions using ReactJS, Firebase, ReduxJS, and Tailwind CSS. Led a proficient team, fostering innovation and achieving a 20% boost in user engagement. Deployed 10+ apps, cutting server response times by 30%. Upheld a meritocratic ethos, prioritizing technical excellence and empowering young talent.

Google DSC

September 2023-Present

Frontend Developer

Vellore Institute of Technology Chennai

Frontend Developer at Google DSC, VIT Chennai: Spearheaded web development initiatives within a dynamic team, leveraging cutting-edge technologies to drive innovation and elevate user experiences

Education

Vellore Institute of Technology

April 2022-June 2026

Computer Science

B.Tech
